MILAN BUDHATHOKI

Jonesboro, AR | 682-306-7740 | milan.budhatho1@smail.astate.edu | github.com/milanbudhathoki38 | linkedin.com/in/milan-budhathoki-8200673b9

EDUCATION

Arkansas State University — Jonesboro, AR *Expected Dec 2028*
B.S. Computer Science, Minor in Mathematics | *Chancellor's List*

RELEVANT PROJECTS

Personal Portfolio | Next.js, Supabase, Redis, Anthropic Claude API *2026*

- Built and deployed a full-stack site with a live AI chat agent powered by the Claude API, including prompt design and a server-side workflow that routes visitor questions through a context-aware system prompt
- Implemented Redis caching (Upstash) in front of an external API integration, cutting repeat-request response time by roughly 4x and reducing load on the upstream service
- Integrated Supabase for backend data storage and Resend for automated email workflows, including diagnosing and resolving a Row-Level Security misconfiguration

Job Application Tracker | Next.js, Supabase Auth *2026*

- Designed and built a full-stack CRUD application with user authentication (email/password and Google OAuth via Supabase Auth), protected routes, and Row-Level Security policies enforcing strict data integrity and per-user isolation
- Built and debugged a custom SMTP email delivery workflow (Resend) for account verification, including root-causing a table-level permissions issue separate from RLS
- Built an AI-powered fit-analysis feature using the Anthropic Claude API, returning a structured match score, strengths, and gaps against a pasted job posting

EXPERIENCE

Mathematics and Statistics KOL Tutor | Arkansas State University *2026 – Present*

- Tutor students in mathematics and statistics coursework, breaking down problem sets and exam preparation into clear, step-by-step explanations

IT Student Intern | Lyon College *Jan 2025 – Jul 2025*

- Provided technical support for campus hardware and software systems
- Assisted with network troubleshooting and system maintenance
- Configured and deployed new workstations on the Lyon domain

SKILLS

Languages: Python, C++, JavaScript, SQL (Basic)

Tools & Platforms: Next.js, Git, GitHub, Supabase, Vercel, Redis, Claude API, REST APIs

Concepts: Object-Oriented Programming, Data Structures & Algorithms, Database Design

Soft Skills: Clear Communication, Independent Problem-Solving, Attention to Detail, Self-Directed Learning

ACTIVITIES

Member, Tau Kappa Epsilon (TKE) Fraternity, Lyon College — participated in chapter community service initiatives
